MEDPAC 2011 – We Need You!

Why do physicians need a Political Action Committee (PAC)?

Every professional group, from trial lawyers to chiropractors, relies on PACs to advance its priorities. Political contributions don't buy votes—they are a tool physicians can use to shape the outcome of elections. If we stand back from politics, we will lose our ability to influence the health care debate. Think of MEDPAC as a megaphone for the physician voice in politics: pooled resources allow us to speak louder. That's why MEDPAC needs your contribution.

To be heard, physicians must speak up. Your membership boosts the volume.

MEDPAC has been one of the larger PACs historically -- but we've fallen behind. Your help is needed today to restore physicians as a key political player.

Give to MEDPAC even if you already support individual candidates!

MEDPAC's role is to support those candidates who understand and support issues that are important to organized medicine. While it is important for you to contribute to candidates who align with your personal politics, MEDPAC contributes to candidates who align with issues important to your profession.

MEDPAC is a bipartisan organization endorsed by the Minnesota Medical Association. MEDPAC contributions must be written on personal checks. Funds from corporations of incorporated practices cannot be accepted for MEDPAC's political contribution fund: corporate checks will be accepted for non-election activities. Contributions are not limited to the suggested amount and the MMA will not favor or disadvantage anyone based on the amounts or failure to make PAC contributions. Voluntary political contributions are subject to prohibitions and limitations of FEC regulations (federal regulations require this notice). Contributions to MEDPAC are not deductible as charitable contributions for federal income tax purposes.
